INDEPENDENT AUDITOR'S REPORT

To the Unitholders of CWB McLean & Partners Global Equity Pool

Opinion

We have audited the financial statements of CWB McLean & Partners Global Equity Pool (the Entity), which comprise:

- the statement of financial position as at December 31, 2023
- the statement of comprehensive income (loss) for the year then ended
- the statement of changes in net assets attributable to holders of redeemable units for the year then ended
- the statement of cash flows for the year then ended
- and notes to the financial statements, including a summary of material accounting policy information

(Hereinafter referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Entity as at December 31, 2023, and its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the “***Auditor’s Responsibilities for the Audit of the Financial Statements***” section of our auditor’s report.

We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

CWB MCLEAN & PARTNERS GLOBAL EQUITY POOL

Notes to Financial Statements

(in Canadian dollars)

For the year ended December 31, 2023, with comparative information for 2022

General:

CWB McLean & Partners Global Equity Pool (the “Fund”) is an open-end unit trust created under the laws of the Province of Alberta and governed by the Second Amended and Restated Declaration of Trust dated April 1, 2022. The address of the Fund’s registered office is 1250-10303 Jasper Avenue NW, Edmonton, Alberta. The Fund’s units are not traded in a public market and it does not file its financial statements with a securities commission or other regulatory organization for the purpose of issuing any class of instruments in a public market.

Under the Declaration of Trust, the Fund may issue an unlimited number of units in an unlimited number of series.

CWB Wealth Management Ltd. (“CWB Wealth” or the “Fund Manager”), a company incorporated under the laws of Canada, is a registered investment fund manager and portfolio manager in each of Canada’s provinces. CWB Wealth is the administrative manager, investment advisor and promoter of the Fund. CWB Wealth replaced CWB Wealth Partners Ltd. (previously CWB McLean & Partners Wealth Management Ltd.) as the Fund Manager on April 1, 2022. CWB Wealth is the parent company of CWB Wealth Partners Ltd.

CIBC Mellon Global Securities Services Company is the administrator and custodian of the Fund and CIBC Mellon Trust Company is the trustee of the Fund (collectively, “CIBC Mellon”).

1. Investment objective of the Fund:

The Fund invests in a diversified portfolio of global securities in order to deliver long-term capital appreciation for investors. To achieve its investment objectives, the Fund may hold individual securities or units of other pooled funds managed by CWB Wealth (“Pooled Funds”). The Fund has concluded that the Pooled Funds in which it invests, but that it does not consolidate, meet the definition of structured entities because the voting rights in the Pooled Funds are not dominant rights in deciding who controls them because the rights relate to administrative tasks only, and the Pooled Funds have unique and well-defined objectives to provide investment opportunities to investors. The Schedule of Investment Portfolio lists the Pooled Funds in which the Fund holds an interest but does not consolidate. During the years ended December 31, 2023 and December 31, 2022, the Fund did not provide financial support to the Pooled Funds and has no intention of providing financial or other support.

Net capital gains and net investment income are calculated in accordance with the provisions of the Income Tax Act (Canada) and the Fund will make quarterly distributions of net income and an annual distribution of net realized capital gains to the unitholders such that no income tax is payable by the Fund.

CWB MCLEAN & PARTNERS GLOBAL EQUITY POOL

Notes to Financial Statements, page 2

(in Canadian dollars)

For the year ended December 31, 2023, with comparative information for 2022

2. Basis of preparation and measurement:

The financial statements have been prepared in compliance with IFRS Accounting Standards (“IFRS”). The policies applied in the financial statements are based on IFRS issued and outstanding as of December 31, 2023. These financial statements have been prepared on the historical cost basis except for financial assets and liabilities recorded at fair value through profit or loss.

The financial statements of the Fund were approved and were authorized for issue by the Fund Manager’s Board of Directors on behalf of the Fund on March 28, 2024.

3. Material accounting policy information:

(a) Financial instruments:

(i) Classification and measurement:

Classification and measurement categories under IFRS 9 are amortized cost, fair value through other comprehensive income (“FVOCI”), and fair value through profit or loss (“FVTPL”). Cash, subscriptions receivable, and dividends receivable are initially measured at fair value and are classified and measured subsequently at amortized cost. Investments and net assets attributable to holders of redeemable units are classified as FVTPL and measured at fair value.

The Fund’s business model is one in which financial assets are managed with the objective of realizing cash flows through the sale of assets. Decisions are made based on the assets’ fair values and assets are managed to realize these fair values. This business model is aligned with the FVTPL classification and measurement category therefore the Fund measures its investments at FVTPL. Debt securities are designated at FVTPL as the Fund does not expect to hold the assets to collect contractual cash flows based on its business model. Collection of the contractual cash flows is not integral to achieving the Fund’s business model objective but is instead incidental to it.

(ii) Expected credit losses:

Trade receivables are held to collect contractual cash flows and are expected to give rise to cash flows representing solely payments of principal and interest. Thus, the Fund measures loans and trade receivables at amortized cost.

IFRS 9 requires that an entity recognize an allowance for expected credit losses on financial assets which are measured at amortized cost or FVOCI, except for investments in equity instruments. Financial assets held by the Fund which are measured at FVTPL are not subject to the impairment requirements.

CWB MCLEAN & PARTNERS GLOBAL EQUITY POOL

Notes to Financial Statements, page 3

(in Canadian dollars)

For the year ended December 31, 2023, with comparative information for 2022

3. Material accounting policy information (continued):

(a) Financial instruments (continued):

(ii) Expected credit losses (continued):

With respect to loans and receivables, the Fund considers both historical analysis and forward-looking information in determining any expected credit loss. As at the financial statement date, all loans and receivables are due to be settled within the short term. The Fund considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligation in the near term.

Given the negligible exposure of the Fund to credit risk, no allowance for expected credit losses has been recognized.

(iii) Valuation and recognition of financial instruments:

Portfolio investments, including short-term investments, are recognized at fair value upon initial recognition. The Fund's investments are classified as FVTPL. Factors leading to the FVTPL designation include the performance evaluation and management of the investment of the Fund on a fair value basis.

The other financial assets and liabilities of the Fund are recognized at fair value on the date they originate and are subsequently measured at amortized cost.

Portfolio investment transactions are accounted for on a trade date basis. Realized gains/losses on sale of investments and unrealized appreciation/depreciation on investments are determined on an average cost basis. Average cost does not include amortization of premiums or discounts on fixed income securities.

Portfolio investments listed on recognized public securities exchanges are valued using the last trade price on the securities exchange on which they are principally traded. If no trade volume is reported to have taken place, closing bid quotations for long positions and closing ask quotations for short positions from the primary exchange or market makers will be used. Portfolio investments not listed on recognized public securities exchanges, or for which reliable quotations are not readily available, are valued using valuation techniques, as determined pursuant to procedures established by the Fund Manager.

CWB MCLEAN & PARTNERS GLOBAL EQUITY POOL

Notes to Financial Statements, page 4

(in Canadian dollars)

For the year ended December 31, 2023, with comparative information for 2022

3. Material accounting policy information (continued):

(a) Financial instruments (continued):

(iv) Fair value hierarchy:

IFRS 13 “Fair Value Measurement” requires a fair value hierarchy for disclosure of the inputs used in the valuation of each financial asset and liability reported by a Fund. The hierarchy of inputs is as follows:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- inputs other than quoted prices included in Level 1 that are based on observable market data for assets or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices) (Level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

Changes in valuation methods may result in transfers into or out of the assets’ or liabilities’ assigned levels. The level summary based on the hierarchy of inputs is disclosed in Note 6. All transfers are deemed to occur at the end of each reporting period.

Equity securities using quoted market prices are included in Level 1.

Investment funds priced at net asset values and fixed-income securities valued at an evaluated bid price as reported by the primary valuation source on the valuation date are included in Level 2.

Level 3 financial instruments consist of portfolio investments not listed on recognized public securities exchanges or for which reliable quotations are not readily available are valued using valuation techniques as determined pursuant to procedures established by the Fund Manager.

(b) Investment income:

Distributions from the underlying investment funds are recognized on the ex-distribution date. Investment transactions are recorded on the trade date. Interest for distribution purposes is coupon interest recognized on an accrual basis and or imputed interest on zero coupon bonds. Dividend income is recognized on the ex-dividend date. Realized gains and losses from investment transactions are calculated on a weighted average cost basis.

The Fund generally incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense in the Statement of Comprehensive Income.

CWB MCLEAN & PARTNERS GLOBAL EQUITY POOL

Notes to Financial Statements, page 5

(in Canadian dollars)

For the year ended December 31, 2023, with comparative information for 2022

3. Material accounting policy information (continued):

(c) Foreign currency translation:

The Fund's functional and presentation currency is Canadian dollars. Transactions in foreign currencies are translated into the Fund's reporting currency using the exchange rate prevailing on the trade date. The quoted fair value of investments and other assets and liabilities denominated in foreign currencies is translated at the year-end exchange rate. Foreign exchange gains and losses relating to cash are presented as "Net foreign exchange gain (loss) on cash" and those relating to other financial assets and liabilities represented with "Net realized gain (loss) on sale of investments" and "Changes in net unrealized appreciation (depreciation) on investments" in the Statement of Comprehensive Income.

(d) Cash:

Cash is comprised of deposits with financial institutions.

(e) Offsetting of financial instruments:

Financial assets and liabilities are offset, and the net amount presented in the Statement of Financial Position when, and only when, the Fund has a legal right to offset the amounts and it intends to either settle on a net basis or to realize the asset and settle the liability simultaneously. Income and expenses are presented on a net basis for gains and losses arising from a group of similar transactions, such as gains and losses from financial instruments at fair value through profit or loss.

(f) Net assets attributable to holders of redeemable units per unit:

Net assets attributable to holders of redeemable units per unit is calculated by dividing the net assets attributable to holders of redeemable units by the number of redeemable units outstanding at the end of the year. Increase (decrease) in net assets attributable to holders of redeemable units per unit in the Statement of Comprehensive Income is calculated by dividing the increase (decrease) in net assets attributable to holders of redeemable units by the weighted average number of units outstanding during the year.

(g) Transaction costs

Transaction costs are expensed and are included in the Statement of Comprehensive Income. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment, which include fees and commissions paid to agents, advisors, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties.

(h) New accounting standards

Effective January 1, 2023, the Fund adopted Disclosure of Accounting Policies (Amendments to IAS 1). The amendments require the disclosure of 'material', rather than 'significant', accounting policies. The amendments did not result in any changes to the accounting policies themselves, they impacted the accounting policy information disclosed in note 3 in certain instances.

CWB MCLEAN & PARTNERS GLOBAL EQUITY POOL

Notes to Financial Statements, page 6

(in Canadian dollars)

For the year ended December 31, 2023, with comparative information for 2022

4. Critical accounting estimates and judgments:

The preparation of financial statements requires management to use judgment in applying its accounting policies to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Fund has made in preparing the financial statements:

Fair value measurement of derivatives and securities not quoted in active market

At times, the Fund holds financial instruments that are not quoted in active markets, including derivatives. Fair values of such instruments are determined using valuation techniques and may be determined using reputable pricing sources or indicative prices from market makers. Broker quotes obtained from the pricing sources may be indicative and not executable or binding. Where no market data is available, the Fund may value positions using its own models, which are usually based on valuation methods and techniques generally recognized as standard within the industry.

5. Fees and expenses:

All fees and expenses applicable to the administration, operation and directly attributable to portfolio transactions which include fees and commissions paid to brokers, dealers and CIBC Mellon are payable by the Fund. At its discretion, the Fund Manager may, but is not obligated to, pay any such expenses.

6. Financial risk management:

Unpredictable events such as environmental or natural disasters, war, terrorism, pandemics, outbreaks of infectious diseases, and similar public health threats may significantly affect the economy and the markets and issuers in which a fund invests. Certain events may cause instability across global markets, including reduced liquidity and disruptions in trading markets, while some events may affect certain geographic regions, countries, sectors, and industries more significantly than others, and exacerbate other pre-existing political, social, and economic risks. The Fund's performance could be negatively impacted if the value of a portfolio holding were harmed by such events.

The Fund's activities expose it to a variety of financial risks. The Fund Manager seeks to minimize potential adverse effects of these risks on the Fund's performance by employing professional, experienced portfolio advisors, by daily monitoring of the Fund's positions and market events and by diversifying the investment portfolio within the constraints of the investment objective. To assist in managing risk, the Fund Manager also maintains a governance structure that monitors compliance with the Fund's stated investment strategy and securities regulations.

CWB MCLEAN & PARTNERS GLOBAL EQUITY POOL

Notes to Financial Statements, page 7

(in Canadian dollars)

For the year ended December 31, 2023, with comparative information for 2022

6. Financial risk management (continued):

Market risk:

Market risk embodies the potential for both losses and gains and includes currency risk, interest rate risk and price risk. The Fund's strategies on the management of investment risk are driven by the Fund's investment objective to provide superior returns through capital appreciation and income by investing in equity securities of companies that have a history of dividend growth anywhere in the world.

Details of the nature of the Fund's investment portfolio at December 31, 2023 are disclosed in the Schedule of Investment Portfolio.

(a) Currency risk

Currency risk arises from financial instruments that are denominated in a currency other than the Canadian dollar, which is the Fund's functional currency. The Fund is exposed to the risk that the value of securities denominated in other currencies will fluctuate due to changes in foreign exchange rates. As at December 31, 2023 and December 31, 2022, the Fund may have been indirectly exposed to currency, to the extent that the underlying funds invested in financial instruments that were denominated in a currency other than the functional currency of the Fund.

(b) Interest rate risk:

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or fair values of financial instruments. Interest rate risk arises on interest-bearing financial instruments held in the investment portfolio. The majority of the Fund's assets are non-interest bearing. Interest-bearing financial assets mature or re-price in the short term, no longer than twelve months. There are no interest-bearing financial liabilities. As a result, fluctuations in the prevailing levels of market interest rates have no significant impact on the net assets of the Fund.

(c) Other price risk:

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk and currency risk), whether caused by factors specific to an individual investment, its issuer, or other factors affecting all instruments traded in a market or market segment. All equity securities subject to market risk are listed in the Schedule of Investment Portfolio; to the extent there is a change in markets they are traded in, the portfolio will be affected accordingly. Maximum losses due to other price risk would be equivalent to the fair value of the securities and other financial instruments.

As at December 31, 2023, a 1% change in the price of pooled fund investments held in the Fund's portfolio would have changed the Fund's net assets attributable to holders of redeemable units by approximately \$1,261,000 (December 31, 2022 – \$1,092,000) with all other factors held constant. In practice, the actual results may differ from this sensitivity analysis and the difference could be material.

CWB MCLEAN & PARTNERS GLOBAL EQUITY POOL

Notes to Financial Statements, page 8

(in Canadian dollars)

For the year ended December 31, 2023, with comparative information for 2022

6. Financial risk management (continued):

Credit risk:

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

As at December 31, 2023 and December 31, 2022, the Fund invested only in the Pooled Funds and may have been exposed to indirect credit risk to the extent that the underlying funds invested in debt instruments, preferred securities and derivatives.

All cash is held on deposit with Canadian financial institutions; accordingly, no significant credit risk relates to cash.

Liquidity risk:

The Fund's exposure to liquidity risk is concentrated in the cash redemptions of units. Redemption notices must be received by the Fund prior to the redemption trade date and redemption payments are made by the Fund within two business days of the redemption trade date.

To manage the liquidity risk, the Fund primarily invests in securities that are traded in active markets and can be readily disposed. In addition, the Fund Manager monitors the cash position on a daily basis and ensures that the Fund retains sufficient cash and cash equivalent positions to maintain liquidity.

Fair value of financial instruments:

The following is a summary of the inputs used as of December 31, 2023 and December 31, 2022 in valuing the Fund's investments carried at fair values:

December 31, 2023	Level 1	Level 2	Level 3	Total
Investment Funds	\$ –	\$ 126,149,986	\$ –	\$ 126,149,986
Short-term investments	764,915	–	–	764,915
Total	\$ 764,915	\$ 126,149,986	\$ –	\$ 126,914,901

December 31, 2022	Level 1	Level 2	Level 3	Total
Investment Funds	\$ –	\$ 109,177,955	\$ –	\$ 109,177,955
Short-term investments	145,833	–	–	145,833
Total	\$ 145,833	\$ 109,177,955	\$ –	\$ 109,323,788

There were no transfers between the three levels during the year.

CWB MCLEAN & PARTNERS GLOBAL EQUITY POOL

Notes to Financial Statements, page 9

(in Canadian dollars)

For the year ended December 31, 2023, with comparative information for 2022

6. Financial risk management (continued):

The carrying values of cash, subscriptions receivable and dividends receivable approximate their fair values due to their short term to maturity.

The Fund's Manager ensures that the underlying funds' portfolio advisor manages financial risks. The Fund's Manager reviews the underlying funds' investment portfolios to analyze the management style and compares performance against the Fund's benchmarks. They receive analysis on performance, sector allocations and the underlying fund's top positions.

7. Redeemable units:

The Fund is authorized to issue an unlimited number of transferable units. Units of the Fund are offered for sale on a continuous basis and may be purchased or redeemed at the Net Asset Value ("NAV") per unit. All units of the Fund are of the same class with equal rights and privileges, including equal participation in any distribution made by the Fund.

There is a contractual obligation to distribute any net income and net realized capital gains to the Fund's outstanding units. Consequently, the Fund's outstanding redeemable units are classified as financial liabilities in accordance with the requirements of International Accounting Standard 32 Financial Instruments: Presentation.
