Annual Management Report of Fund Performance

For the period ended December 31, 2023

Disclosure

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-855-292-9655, by writing to us at Suite 3000, 10303 Jasper Avenue, Edmonton, AB T5J 3X6, by visiting our website at www.cwbwealth.com, or by visiting SEDAR at www.sedarplus.ca.

CWB Wealth Management Ltd. (“CWB WM”) is the manager of the fund, and a wholly owned subsidiary of Canadian Western Bank (“CW Bank”).

Security holders may also contact us using one of these methods to request a copy of the investment fund’s interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Caution Regarding Forward Looking Information

This report may contain forward-looking statements, including, but not limited to, statements about the Fund, its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “anticipates”, “believes”, “estimates”, “expects”, “intends”, “plans”, “may”, or future or conditional verbs such as “will”, “should”, “would” and “could”, and similar forward-looking expressions or negative versions thereof. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement.

Forward-looking statements are based on current expectations and projections about future general economic, political, and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general economic and business environment, in each case assuming no material changes to applicable tax or other laws, government regulations, or policies.

By their very nature, forward-looking statements involve numerous assumptions and are subject to inherent risks and uncertainties, which give rise to the possibility that the Fund’s predictions, forecasts, projections, expectations, and conclusions will not prove to be accurate, and that its assumptions may not be correct.

Forward-looking statements are not guarantees of future performance, and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Fund. A variety of factors, many of which are beyond the Fund’s control, may cause actual results to differ materially from the expectations expressed in the forward-looking statements. These factors include, but are not limited to, general economic, political, and relevant market factors in North America and internationally, interest and foreign exchange rates, equity and capital markets, business competition, technological change, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events, including natural disasters, pandemics, war and other risks described in the Fund’s current simplified prospectus. The above-mentioned list of important factors is not exhaustive.

Before making any investment decisions, investors and others relying on forward-looking statements should carefully consider the foregoing factors and the uncertainties and risks they contain. We caution readers not to place undue reliance on these forward-looking statements.

Forward-looking statements are issued in good faith and may be modified without notice. We assume no obligation to update forward-looking statements in the light of new information, future events, or other circumstances unless applicable legislation so requires.

Management Discussion of the Performance of the CWB Onyx Diversified Income Fund

Investment Objectives and Strategies

The investment objective of the CWB Onyx Diversified Income Fund (the “Fund”) is to provide unit holders with steady income and some principal growth, while preserving principal and reducing volatility, by investing in a diversified portfolio of fixed income securities and preferred shares.

The Fund will invest in fixed income securities issued or guaranteed by governments and corporations globally. Convertible debentures, non-investment grade corporate debt, emerging market bonds and preferred shares are fixed income categories that may be utilized within the overall asset mix of the Fund to enhance yield and manage risk. The Fund can invest up to 30% of the Fund’s assets in foreign securities of which the currency exposure denominated in foreign currencies may be actively managed.

Risks

No changes to the Fund affecting the Fund’s overall level of risk were made during the 12-month period ended December 31, 2023 (the “Period”). The risks of investing in the Fund and the suitability of the Fund for investors remain as discussed in the Fund’s most recent simplified prospectus or any amendments or fund facts.

Results of Operations

Over the Period, the Fund’s net assets increased by \$1,985,591 to \$182,768,559. This reflects an increase of \$12,774,279 from investment performance, distributions to unitholders of \$7,272,252, and net withdrawals of \$3,516,436.

Series A of the Fund returned 6.07% over the Period versus the Fund’s internal benchmark (the “Fund Benchmark”), the FTSE Canada Universe Bond Index, which returned 6.69% over the Period. Unlike the Fund Benchmark, the Fund’s return is calculated after the deduction of fees and expenses. Returns for Series O of the Fund may vary, largely due to differences in fees and expenses.

After raising interest rates by 4.00% in 2022, the Bank of Canada (BoC) continued to raise rates by another 0.75% over the period with the last increase occurring in July 2023. The rapid pace of rate increases had the desired effect on inflation. The Consumer Price Index in Canada fell from 6.8% in 2022 to 3.9% in 2023. With significant progress on inflation, central banks (including BoC) started to signal in the fourth quarter of 2023 that future rate hikes may not be necessary to bring inflation to the BoC’s target of 2%, and that rate cuts may begin in 2024.

This pivot in rate expectations, from hikes to potential cuts, caused a significant rally in bond prices. The Canadian bond market was flat at the end of October (as per the FTSE Canadian Universe Bond Index). But it rallied over the next two months on the above-mentioned pivot to post total returns above 6.0%.

Yields on longer-dated bonds (i.e., those with maturities greater than 10 years) fell more than those on shorter-dated bonds, reflecting a belief in the rate cut narrative. Provincial and corporate bonds outperformed Canada bonds as investors took on more risk in bond portfolios, moves which reflected confidence that a recession in 2024 would be shallow, or perhaps avoided altogether.

The Fund's performance relative to its benchmark was impacted positively by exposure to corporate and provincial bonds. Duration (interest-rate sensitivity) was inline with the benchmark and had little impact on relative performance.

Recent Developments

Macroeconomic data such as inflation and GDP growth will continue to see heightened scrutiny in 2024. Investors believe that interest rates cuts are likely to begin in Q2 2024, and they will be looking for any signs that shift expectations.

Related Party Transactions

CWB WM is the trustee, manager, portfolio advisor, and principal distributor of the Fund. The Fund pays CWB WM a management fee as compensation for its services. Refer to the section titled 'Management Fees' for a summary of fees paid to CWB WM.

The CWB Onyx Managed Solution funds, comprised of the CWB Onyx Conservative Solution, the CWB Onyx Balanced Solution and the CWB Onyx Growth Solution, invests in series O units of the Fund. As of December 31, 2023, 2.81% of the Series O units of the Fund are held by the CWB Onyx Conservative Solution, 5.99% of the Series O units of the Fund are held by the CWB Onyx Balanced Solution and 2.92% of the Series O units of the Fund are held by the CWB Onyx Growth Solution.

CWB WM is party to a participating dealer agreement (the "Dealer Agreement") with Canadian Western Financial Ltd. ("CWF"), a subsidiary of CWB WM. Pursuant to the Dealer Agreement, CWB WM pays CWF a monthly trailing commission equal to 1/12th of 0.50% of the net asset value attributable to units of the Fund held by CWF clients. This trailing commission is paid directly by CWB WM and does not increase the management fee paid to CWB WM by the Fund.

¹ This information is derived from the Fund's audited annual financial statements. All figures presented are prepared in accordance with IFRS Accounting Standards, which requires the Fund to measure the fair value of its investments based on close market prices, where the close market price falls between the bid-ask spread, which is consistent with the method used in measuring the net asset value for transactions with unitholders.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period.

³ Distributions were paid in cash, reinvested in additional units of the Fund or both.

Net asset value per unit	\$9.17	\$8.90	\$10.20	\$10.67	\$10.33

¹ This information is provided as at December 31 of the year shown unless otherwise stated.

² Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

³ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

⁴ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The annual management fees and a breakdown of the services received in consideration of the management fees, as a percentage of the management fees, for each series are as follows:

Fund	Management Fee (% of NAV)	Distribution Costs (% of Management)	Others* (% of Management Fee)
Onyx Diversified Income Fund – Series A	1.00	2.81	97.19
Onyx Diversified Income Fund – Series O	N/A	N/A	N/A

* Includes investment advisory fees, administration fees, and other operating fees

The Fund’s management fees were used by CWB WM to pay for the cost of managing the investment portfolio, providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sales of investment portfolio, providing other services, and compensating CWB WM for acting as trustee of the Fund. CWB WM also used the management fee to fund trailing commissions and any other compensation to CWF whose clients invest in the Fund.

The Series O management fee is negotiated and paid directly by each investor and will not exceed the Series A management fee.

Past Performance

The past performance of the Fund is set out in the following charts. The performance information shown assumes that all distributions made by the Fund in the years shown were reinvested in additional securities of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, or other optional charges, or income taxes payable that would have reduced returns or performance.

Mutual fund returns are not guaranteed. Please note that past performance is not indicative of future performance.

Year-by-Year Returns

The following bar chart shows the Fund’s annual performance in each of the periods shown and illustrates how the Fund’s performance has changed from period to period. The chart below shows, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

*Return from February 10, 2016 (commencement of operations) to December 31, 2016, not annualized.
