For the period ended December 31, 2023

Disclosure

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-855-292-9655, by writing to us at Suite 3000, 10303 Jasper Avenue, Edmonton, AB T5J 3X6, by visiting our website at www.cwbwealth.com, or by visiting SEDAR at www.sedarplus.ca.

CWB Wealth Management Ltd. (“CWB WM”) is the manager of the fund, and a wholly owned subsidiary of Canadian Western Bank (“CW Bank”).

Security holders may also contact us using one of these methods to request a copy of the investment fund’s interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Caution Regarding Forward Looking Information

This report may contain forward-looking statements including, but not limited to, statements about the Fund, its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “anticipates”, “believes”, “estimates”, “expects”, “intends”, “plans”, “may”, or future or conditional verbs such as “will”, “should”, “would” and “could”, and similar forward-looking expressions or negative versions thereof. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement.

Forward-looking statements are based on current expectations and projections about future general economic, political, and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general economic and business environment, in each case assuming no material changes to applicable tax or other laws, government regulations, or policies.

By their very nature, forward-looking statements involve numerous assumptions and are subject to inherent risks and uncertainties, which give rise to the possibility that the Fund’s predictions, forecasts, projections, expectations, and conclusions will not prove to be accurate, and that its assumptions may not be correct.

Forward-looking statements are not guarantees of future performance, and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Fund. A variety of factors, many of which are beyond the Fund’s control, may cause actual results to differ materially from the expectations expressed in the forward-looking statements. These factors include, but are not limited to, general economic, political, and relevant market factors in North America and internationally, interest and foreign exchange rates, equity and capital markets, business competition, technological change, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events, including natural disasters, pandemics, war and other risks described in the Fund’s current simplified prospectus. The above-mentioned list of important factors is not exhaustive.

Before making any investment decisions, investors and others relying on forward-looking statements should carefully consider the foregoing factors and the uncertainties and risks they contain. We caution readers not to place undue reliance on these forward-looking statements.

Forward-looking statements are issued in good faith and may be modified without notice. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so requires.

Management Discussion of the Performance of the CWB Onyx Global Equity Fund

Investment Objectives and Strategies

The investment objective of the CWB Onyx Global Equity Fund (the “Fund”) is to achieve long-term capital appreciation by investing in a diversified portfolio of publicly traded U.S. and international equity securities.

We target an allocation of 98% in U.S. and international equity securities, real estate investment trusts and similar investment vehicles. We target an allocation of 2% in Canadian, U.S. and international fixed income securities, including cash and short-term investments, under normal market conditions. The Fund can hold up to 100% of its assets in foreign securities, and the Fund’s holdings in foreign currencies may be actively managed.

Risks

No changes to the Fund affecting the Fund’s overall level of risk were made during the 12-month period ended December 31, 2023 (the “Period”). The risks of investing in the Fund and the suitability of the Fund for investors remain as discussed in the Fund’s most recent simplified prospectus or any amendments or fund facts.

Results of Operations

Over the Period, the Fund’s net assets increased by \$8,709,248 to \$109,869,423. This reflects an increase of \$22,214,645 from investment performance, distributions to unitholders of \$2,491,389 and net withdrawals of \$11,014,008.

Series A units of the Fund returned 20.34% over the Period versus the Fund’s internal benchmark (the “Fund Benchmark”), a combination of the S&P 500 Index TR \$CAD and the MSCI All Country World Index (ACWI) ex-USA TR \$CAD, which returned 18.50% over the Period. The Fund’s general market index benchmarks, the S&P 500 TR Index \$CAD and the MSCI ACWI ex-USA TR \$CAD (the “Broad-Based Benchmarks”), returned 23.27% and 13.44%, respectively, over the Period. Unlike the Fund Benchmark and the Broad-Based Benchmarks, the Fund’s return is calculated after the deduction of fees and expenses. Returns for individual Series O unitholders of the Fund may vary, largely due to differences in fees and expenses.

Central banks continued to raise interest rates in 2023 in order to bring inflation down to more reasonable levels. After raising its Fed Funds Target rate by 3.75% in 2022, the U.S. Federal Reserve Board continued to hike rates by another 1.5% over the period. The rapid pace of rate increases was having the desired effect on inflation in many global economies. For instance, the Consumer Price Index in the U.S. fell from 8.0% in 2022 to 4.1% in 2023. With significant progress on inflation, central banks started to signal in the fourth quarter of 2023 that future rate hikes may not be necessary, and that rate cuts may begin in 2024.

This pivot in rate expectations, from hikes to potential cuts, caused a significant rally in global equity markets as market participants started to increase the odds of a soft economic landing (i.e., no recession). Global equity

markets rallied significantly over the last two months of 2023 to post a return of 21.59% (as per MSCI ACWI Index). U.S. stocks were particularly strong on the year, with the emergence of Artificial Intelligence (AI) through applications such as ChatGPT taking centre stage with investors.

Fund performance relative to its benchmark was impacted positively by relative exposure in the Fund to NVIDIA (a key beneficiary of the AI theme), Intel and Alphabet. By contrast, relative exposure to Dollar General, Elevance and Alibaba Group negatively impacted the Fund's relative returns.

From a sector perspective, strong stock selection in information technology and financials helped performance. Meanwhile, stock selection in consumer discretionary hurt performance, primarily through not owning Tesla, which performed well during the period.

Recent Developments

Macroeconomic data such as inflation and GDP growth will continue to see heightened scrutiny in 2024. Investors believe that interest rates cuts are likely to begin in Q2 2024 and will be looking for any signs that shift expectations.

Related Party Transactions

CWB WM is the trustee, manager, portfolio advisor, and principal distributor of the Fund. The Fund pays CWB WM a management fee as compensation for its services. Refer to the section titled 'Management Fees' for a summary of fees paid to CWB WM.

The CWB Onyx Managed Solution funds, comprised of the CWB Onyx Conservative Solution, the CWB Onyx Balanced Solution and the CWB Onyx Growth Solution, invests in Series O units of the Fund. As of December 31, 2023, 0.84% of the Series O units of the Fund are held by the CWB Onyx Conservative Solution, 8.08% of the Series O units of the Fund are held by the CWB Onyx Balanced Solution, and 8.12% of the Series O units of the Fund are held by the CWB Onyx Growth Solution.

CWB WM is party to a participating dealer agreement (the "Dealer Agreement") with Canadian Western Financial Ltd. ("CWF"), a subsidiary of CWB WM. Pursuant to the Dealer Agreement, CWB WM pays CWF a monthly trailing commission equal to 1/12th of 1.00% of the net asset value attributable to units of the Fund held by CWF clients. This trailing commission is paid directly by CWB WM and does not increase the management fee paid to CWB WM by the Fund.

¹ This information is derived from the Fund's audited annual financial statements. All figures presented are prepared in accordance with IFRS Accounting Standards, which requires the Fund to measure the fair value of its investments based on close market prices, where the close market price falls between the bid-ask spread, which is consistent with the method used in measuring the net asset value for transactions with unitholders.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period.

³ Distributions were paid in cash, reinvested in additional units of the Fund or both.

Net asset value per unit	\$19.98	\$16.63	\$18.65	\$15.94	\$14.51

¹ This information is provided as at December 31 of the year shown unless otherwise stated.

² Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

³ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

⁴ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The annual management fees and a breakdown of the services received in consideration of the management fees, as a percentage of the management fees, for each series are as follows:

Fund	Management Fee (% of NAV)	Distribution Costs (% of Management Fee)	Others* (% of Management Fee)
Onyx Global Equity Fund – Series A	1.85	41.41	58.59
Onyx Global Equity Fund – Series O	N/A	N/A	N/A

* Includes investment advisory fees, administration fees, and other operating fees

The Fund's management fees were used by CWB WM to pay for the cost of managing the investment portfolio, providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sales of investment portfolio, providing other services, and compensating CWB WM for acting as trustee of the Fund. CWB WM also used the management fee to fund trailing commissions and any other compensation to CWF whose clients invest in the Fund.

The Series O management fee is negotiated and paid directly by each investor and will not exceed the Series A management fee.

Past Performance

The past performance of the Fund is set out in the following chart. The performance information shown assumes that all distributions made by the Fund in the years shown were reinvested in additional securities of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, or other optional charges, or income taxes payable that would have reduced returns or performance.

Mutual fund returns are not guaranteed. Please note that past performance is not indicative of future performance.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance in each of the periods shown and illustrates how the Fund's performance has changed from period to period. The chart below shows, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.
